

## Grevillea Ward

Name	Endorsed	Vision	Expertise
CAPON, Stephen	No	A City where people can thrive in work, hobbies, community, and recreation, by Council listening to ratepayers needs, whether that's more facilities and services, or reducing rates and programs. Different parts of the ward have different requirements and there is no one- size-fits-all.	An open, curious mind; the hunger to listen and understand others' perspectives; problem- solving and analysis as an Engineer; values of excellence and reliability; vigour and energy as a 27 year old; well-developed English skills; and the ability to find compromises and balance competing priorities.
CHIRUNGA, Sinfree	No	The creation of an inclusive, vibrant community where sustainable growth and fiscal responsibility drive progress. I would like to see public services enhanced, and the community fully engaged and supported in diverse initiatives for the benefit of all residents.	Drawing from board experience, I can offer a strategic approach to decision-making ensuring policies align with community goals. My strong financial acumen will mean that I can oversee budgets and advocate for effective, economic and efficient allocation of resources and drive fiscal responsibility within local council.
MATULEC, Stephen	No	Rates are too high and need to be cut considerably, giving more money back to each household. There should be no political agendas and the council needs to focus on basic local issues including roads, footpaths, rubbish collection, and parks.	I have experience in local grassroots activism and doing petitions. I have been consulting the community and asking what is needed, so I know what the community needs from the incoming council.
