BAIRD, Craig	Freedom	No	I want to see a trimmed-down Casey Council, which can keep rates low. We also need the services to run smoothly and Council to focus on Roads, Rates and Rubbish. Casey Council, after four years of administration, must now be transparent and accessible to residents and rate-payers.	I am a competent and natural leader with many years' experience, in private business, managing software teams. With a willingness to listen and no prior political experience, I bring fresh eyes, and will be inclined to question some of the accepted but unhelpful norms at our council.

As a higher education professional with nine years at the University of Melbourne, a member of Engineers Australia, and a dedicated researcher as PhD candidate, I possess strong listening skills, a solid work ethic, and project management experience.
